Mayor Key will designate a new committee to re-establish harmony and efficiency in police department administration regardless of whether city council confirms his revocation of his orginal appointments or not, it was predicted yesterday as many new angles to the involved police problem developed.

Although Key made no new statement, and no amplification of his revocation announcement was made during the day, those close to the administration asserted the mayor's mind is made up and he will insist on a new committee to control police department activities.

Indications, however, were that the announced he will offer his resignation to Mayor Key this morning unconditionally and Councilman Horacs

Smaller Appropriation Needs in Future Are Seen by Buchanan.

WASHINGTON, April 23.—(P)—
A hope that future appropriations for the social security program might be iderably smaller than the \$195,-800,000 estimate the house appropriations committee is working on was expressed tonight by Chairman Buchanan, democrat, Texas.

For the next fiscal year \$23,000,-000 was asked in budget estimates transmitted by President Roosevelt for salaries and expenses of the new agency and \$15,800,000 for setting up wage records upon which unemployment compensation is to be based. It was the latter item, especially, Buchanan expected to be smaller in the

anan expected to be smaller in the future.

"Of course," he told newsmen, "there is a large administrative appropriation because the government has to get a record, that is, a complete record of employes up to 65 years. This won't be an altogether recurring item. Though these records will have to be kept up, it seems to me it can be done with a small appropriation, with employers required to supply automatically information on changes."

The other sums included in the so-

The other sums included in the social securit; program estimates were \$85,000,000 for grants to states for old-age assistance, \$29,000,000 for grants to states for unemployment compensation administration, \$35,000,-000 for grants to states for aid to dependent children and \$8,000,000 for aid to the blind.

Bringing the total cost to nearly \$500,000,000 is a \$265,000,000 separate estimate for treasury old-age pension reserves, and small administrative sums carried in the regular agencies helping administer the program.

Buchanan acid that administrative sums carried in the regular agencies helping administer the program.

gram.

Buchanan said that with the social security estimates in hand he hoped to wind up hearings by next Monday on the big deficiency bill—which also includes \$1,500,000,000 for relief—and have the measure ready for house consideration when the tax bill has been disposed of.

NEGRO YOUTH JAILED FOR STEALING DRESSES

A negro youth who allegedly attempted to hide several dresses on his person was arrested yesterday morning in the Brown-Hayes Company department store at 465 Edgewood avenue, S. E.

The suspect, who gave his name

nue, S. E.

The suspect, who gave his name as Fred Smith, 23, of an Auburn avenue address, was taken into custody by Patrolman O. M. Morgan, who was off duty and in the store at the time. Smith was charged with suspicion and larceny.

According to police, a clerk saw him trying to cram the garments into pockets of his clothing.

TRENTON, N. J., April 23 .- (AP)-New Jersey's unemployed, camping stubbornly in the state house legislative chambers until relief funds are provided, today forced the assembly

Far from satisfied, however, the ampers, who have besieged the state campers, who have besieged the state house since the legislature adjourned at 3:30 p. m. Tuesday without passing relief legislation, demanded the senate also interrupt its six-day recess. Both houses had adjourned until Monday night.

The group, whose number varies from 50 to 20, was persuaded to leave the assembly chamber when civil service examinations were scheduled there, but they demanded—and received—permission to meet in the senate room.

The relief crisis resulted from the legislature's failure in its three months' session to agree on a substitute for Governor Harold G. Hoffman's 2 per cent retail sales tax, which was repealed last October.

A kitchen shower is fun to give, and is so practical. Round up your friends and plan the gifts beforehand to avoid duplications. Then arrange to have a small brother or neighbor's boy, dressed in a white grocer's range to have a small brother or neighbor's boy, dressed in a white grocer's apron, deliver the gifts in a market basket at the kitchen door. Serve luncheon in the kitchen, too, if it's convenient. Cover the table with a checked gingham cloth and use small aprons made of a contrasting colored gingham in place of napkins. Arrange a mound of polished fruits and vegetables in a big wooden vegetable bowl in the center of the table and flank this on either side with tall candles placed in apples holowed out to serve as holders. Then serve the gay menu given below on plain kitchen dishes and you will have a most amusing party:

An upward swing in American exports of a wide range of products during 1935 was reported today by the Chamber of Commerce of the United States.

An analysis by the chamber's foreign commerce section said the "continued, though not spectacular" improvement was "coincident with general recovery and increased purchasing power in many parts of the world."

Topping the list of products for which increased world demand was reported were cotton, automobiles, machinery and petroleum products.

"Our export trade was still hampered by quotas, exchange controls, and other import restrictions," the review said. "In some nations these and other efforts to build up selfsufficiency, particularly in products of the soil, limited our trade."

The total, Clements told a house investigating committee, covered a period from October, 1934, to April 1, this year and included \$50,000 he received for his half share in the Townsend National Weekly. A total salary for the two and one-half years of \$9,900 and that living expenses and incidentals made up the rest. Clements said Dr. F. E. Townsend, tounder of \$200-a-month pension plan, received the same salary, dividends and other import restrictions," the review said. "In some nations these and other efforts to build up selfsufficiency, particularly in products of the soil, limited our trade."

WHAT YOU EAT HAS A LOT TO DO WITH HOW YOU FEEL

Correction of Constipation* Is Often a Matter of Menus

For years, the medical profession has insisted that proper diet is more effective in promoting health than the indiscriminate use of patent medicines. Today, they are seeing their teachings bear fruit.

For instance, millions of families have learned that common consti-pation is largely due to insufficient "bulk" in meals. Many of them cor-rect this condition by the regular use of Kellogg's ALL-BEAN.

This delicious cereal supplies generous "bulk" in effective form. Within the body, its "bulk" absorbs moisture, and forms a soft mass. Gently this clears out the intestinal

Kellogg's ALL-BRAN also supplies vitamin B and contains iron. It may be served as a cereal with milk er cream, or cooked into tempting muffins, breads, etc.

Two tablespoonfuls daily are usually sufficient. Stubborn cases may require ALL-BRAN oftener. If not relieved this way, consult your dector.

Kellogg's AU-BRAN is not a "cure-all"—but it does correct common constipation. It is guaranteed by the Kellogg Company. Sold by all grocera. Made by Kellogg in Battle Creek.

is rolling, and the others can't wait until 60 days before the primary. After that the wagons will be pretty well crowded.

That Talmadge hasn't definitely made up his mind what office he will seek and likewise hasn't made up his mind who will be the Talmadge candidate for Governor in the event he should run for the senate appears to be the only thing certain. There's strategy in that, too. If Talmadge finally decides to shoot for the senate and pick Redwine for Governor there are bound to be some in the inner circle who won't like it. But the longer he waits the less chance those in the inner circle have to bolt. The boys on the inside don't bolt unfess they can get on the inside in the other fellow's camp, and it is a cinch that by July the inside seats in the opposition camp will be well filled.

To Meet June 17.

To Meet June 17. The state committee won't meet to fix for the September primary until June 17, less than 90 days before the primary. When it does it probably will open the entries and probably will fix the latest possible closing date, maybe as late as August 1. So Talmadge may not even say on July 4 what he is running for. He may not say until August 1. He will just go to running and as late as possible pick out the office he thinks the most available. It all probably will is pend on how his "keep them guessing and talking" program gets along.

guessing and talking" program gets along.

Talmadge's attempt to capture all of the state offices and seats in congress, of course, will depend on developments within the next month or six weeks. The attempt also may hinge on the vote-getting power of candidates he may be able to line up for the various offices. If he can get candidates to add strength to his ticket he doubtless will take them. If not, he probably will leave the offices alone.

Opposition Awake.

Opposition Awake.

But while Talmadge has been moving about doing what he can to help himself and his followers, the opposition is far from being asleep.

Senator Russell has been in the state twice within the last month conferring with his political and personal friends. His friends all over the state are not leaving anything undone when are not leaving anything undone when

ferring with his political and personal friends. His friends all over the state are not leaving anything undone when it comes to calling attention to his record. The Russell fences are pretty well built and there is a feeling that unless Talmadge himself opposes the senator Russell will get by without organized opposition.

Likewise Speaker E. D. Rivers, of the house of representatives, whose announcement for governor now appears a certainty, is becoming increasingly active, along with his friends, over the state. True, the speaker has been confining his speeches to support of President Roosevelt and the President's security program, old-age pensions, free school books and a guaranteed seven-month school term.

There are scattered "booms" for Solicitor General W. Y. Atkinson, of Newnan, and former Congressman W. W. Larsen, of Dublin, for governor, but thus far these have been confined to the localities of the prospective candidates. However the Atkinson and Larsen movements are "present" despite a tendency of most anti-Talmadgeites to center on one candidate.

Nix Keeps Mum.

Abit Nix, of Athens, a strong possibility for any office he might seek, has remained silent.

Unless Talmadge should decide to try to elect a congressional delegation committed to his principles, information reaching Atlanta is that most of the congressmen may get by without serious opposition. One race, and a hard race at that, seems to be in the offing. This will be in the ninth district where Congressman B. Frank Whelchel, of Gainesville, will be met by the man he succeeded, Judge John S. Wood, of Canton. The lines of battle are being drawn in the district and the voters are looking forward to an old-fashioned kinockdown and dragout fight. In the other districts there is talk of opposition to some of the congressmen but thus far none of themselves and the congressmen but thus far none of the congressmen but thus far none of the congressmen but thus far none of the

council ought to have the courage to meet.

"He does not even bother to apologize to the members of the city government or to the citizens of Atlanta who entrusted him with public office, but he has the nerve and gall to adopt a fighting attitude and actually lead a movement to reinstate a drunk policeman.

"If public officials from the mayor on down can not muster the moral courage to meet the situation fairly and squarely without a suggestion of anything else, then we are in a bad way."

LAY ATTACK TO OWENS Taxi Men's Own Council Tries Men for Traffic

Misdemeanor Trial Is Postponed as Two Identify Legger in Courtroom.

Trial of Raiph Owens on three mis-demeanor counts was postponed yes-terday in Fulton criminal court after a dramatic courtroom scene in which two alleged victims identified Owens as the man who attacked them on Houston street last Halloween. Owens, who had demanded trial on charges of caming, possessing whisky.

Owens, who had demanded trial on charges of gaming, possessing whisky, and assaulting three unidentified persons, was rearrested in the courtroom and placed under a new \$1,000 bond. Dr. Linton Smith, of 427 Moreland avenue, N. E., and Dick Bolton, of 441 Moreland avenue, N. E., appeared in criminal court as the trial of Owens was about to begin and declared they were two of the three "unidentified persons" whom Owens was accused of attacking.

persons" whom Owens was accused of attacking.

Accusations Sworn.

They swore out new accusations, the basis for the new arrest.

Dr. Smith, who said his jawbone was broken on Halloween night as he walked on Houston street, told the court he recognized Owens' picture in a newspaper and that he and Bolton, who is a medical student, kept the identification secret until yesterday morning.

morning.

The third "unidentified person" is still unidentified.

Owens is already under three sentences totaling 24 months for assault

owens is already cauchy tences totaling 24 months for assault and battery.

He was to have been tried yesterday on a charge that he played dice at the police station last November and that he was the owner of 42 pints of whisky found in a car last year by city police. The charge of assau. and battery on the three persons was contained in the same indictment, but with the identification by Dr. Smith and Bolton another case was created.

New Trial Soon.

Solicitor John McClelland said Owens will be tried on the new charges within the next few weeks.

W. R. Bentley, attorney for Owens, protested the new \$1,000 bond by pointing out that Owens is already under bond of \$2,500 pending appeals in the three assault convictions. However, McClelland required the stipulated amount. The bond was made later.

Owens has run the gamut of Fulton courts this week, missing only the juvenile and the court of ordinary.

Monday he was convicted in superior court of assault and battery on Charles Christian. Tuesday he resisted the effort of Christian to put him under a peace bond in municipal court, and yesterday he was the center of a melodramatic legal wrangle in criminal court.

thrust toward Harar.

The columns of General Rodolfo Graziani were said to be still more than 100 miles south of the important Jijiga-Harar caravan route.

For the first time since January Crown Prince Asfa Wosan presided at a meeting of the cabinet and chieftains.

Ras Nasibu, commander of the southern army, reported from Daggah Bur that the Italian drive in Ogaden had been halted and the blackshirts were driven "several tens of kilometers" south of Badu Danana. Then, said Nasibu, Graziani rushed up reinforcements and the Ethiopians were made to retire to Badu Danana.

Likawisa saserted the communique,

Likewise, asserted the communique, the position of the northern Italian army on the front south of Dessye is "precarious, harassed by troops under Ras Kabada and Azebo Galla tribes." (Rome had claimed these tribes were aiding the Italians.)

Officials admitted warriors of the Wolla Wolla tribe were reported to have revolted and fought loyal troops. They blamed this upon Italian propaganda.

Expect Better Showing.

The imperial army is expected by officials here to make a better showing in the towering mountains between here and Dessye because its members are more familiar with their native Shoan territory.

Reports reached here of severe fighting in the north from Warra Hailu but Ethiopians said they believed it would be impractical for the Italians to try to advance with motorized units over this, the shortest route to Addis Ababa from Dessye.

A second road which they may take A second road which they may take leads through Abuya Meda and Robi but it is provided with many natural defenses. A third road goes through the Danakil desert, passing numerous stream beds, to Ankober. Ethiopians assert all roads, however, are well guarded with fresh troops.

Gay, Pathetic Story of La Boheme

By MOZELLE HORTON YOUNG.

"La Boheme," an opera in four acts: music by Giacomo Puccini: text by Giuseppe Giacosa and Luigi Illica, to Gounded on Henri Murger's book, "La Vie de Boheme," will be the matinee offering of the current opera season at 2 o'clock tomorrow afternoon at the Fox theater. This opera was first produced at the Teatro Reggio, at Turin, Italy, on February 1, 1896. Two years later it was given for the first time in America in San Francisco by the Royal Italian Opera Company.

This opera combines the gay and the pathetic into a most fascinating picture of student life in the Latin quarter of Paris during the early part of the nineteenth century.

that she needed a rest.

She told me enthusiastically of her new home that she has bought in New Rochelle, a suburb of New York city, this winter, and its lovely garden, in which she adores "just digging and digging." She says that the digging in the fresh air has been of more help to her voice than anything, because it makes her feel grand physically. But she confesses that her knees are beginning to look like a devout kneeler's knees, and sometimes after a session of digging it is two or three days before she can get back to her normal posture. She keeps in trim for her garden work by doing a great deal of horseback riding, though.

If you think an operation is always the only way to escape the misery of torturing Piles, it's because you haven't heard of HEM-ROID, the harmless internal medicine discovered by a western physician.

After years of study Dr. J. S. Leonhardt was convinced that the cause of Piles was internal—bad circulation of blood in the lower bowel—the hemorrhoidal veins filled with stagnant blood—and that the right and safe way to get freedom from Pile agony was to remove the cause with an internal medicine. Immediately the doctor set to work to find the remedy. He succeeded and called his prescription HEM-ROID.

Pile sufferers everywhere are benefitting by Dr. Leonhardt's discovery, so why doubt or delay longer when Jacobs Drug Stores and all druggists say, "No matter what kind of Piles you have, one bottle of HEM-ROID tablets must show you the safe clean way to get rid of your pile misery or money back."—(adv.).

"In your opinion does politics play a part in the handling of relief in your locality?"

WITH relief administration looming as one of the great issues in the 1936 presidential campaign, you'll be interested to see how American voters answer the two questions above. Particularly since this opinion may be reflected in the future conduct of relief activity in your own community.

Previously, you would have been unable to learn at the moment how the country felt about such an important problem. Next Sunday, thanks to the unique news service supplied each week in AMERICA SPEAKS, the National Weekly Poll of Public Opinion, The Constitution will tell you exactly what the nation's voters are thinking about relief and its administration.

Here is the next move: Dantzig and the Polish corridor are German land. Nobody can deny that. German land belongs to the German reich. To keep Germans living under an alien yoke is an injustice. Half of the members of the house of lords will agree to this at once. Certain political "salons" in London, which exercise a powerful influence on certain British statesmen the services rendered at his order probably entertain the belief that he, and not The Constitution, is "unreliable."

It is a pity, for the good both in London, which exercise a powerful influence on certain British statesmen and politicians and where Herr Von Ribbentrop has the entree as an honored guest, have already debated the point and will do their share. Germany cannot be considered the full equal of other states so long as she is hardened by the print of the pr equal of other states so long as she is burdened by the unjust Versailles treaty. That's an accepted maxim now in England. The creation of the Polish corridor was one of the great injustices of the Versailles treaty, much greater than the Rhineland's demilitarization. NEWS BEHIND THE NEWS BY PAUL MALLON.

MENTAL RESERVATIONS WASHINGTON, April 23.—The dull public reaction to the new house tax bill may be explained in part by the fact that no one understands it, including some of the men who wrote it.

Twenty-three years were spent in building up the existing corporation tax structure to keep the big fellows from evasions. Just about 23 days were spent by the house ways and means committee in conceiving the complicated substitute. Considering the impossibility of it, the committee did a good job, particularly Representatives Hill and Vinson, who really know something about the new scheme and are sincerely for it. However, not all the committeemen who voted for it were as enthusiastic about it as these two.

There is evidence that some supporters of the bill were sorry to commit themselves, but there was nothing else to do. This is a campaign year, and they did not dare risk the wrath of the White House.

COMPROMISING A contributing reason for the lack of interest is that everyone understands the bill will be revised by the senate. The key to the situation now is Senator La Follette. Details of the senate revision appear to depend on what kind of innocent error.

It was no excuse in the case of Mr.

fight he makes.

After the senate democrats get through compromising with La Follette, they will then compromise with the house, and that will be the final form of the bill.

You can wager more than a nickel that the corporation feature of the final compromise will be something like the old Jones plan, retaining the existing corporation tax system and imposing a surtax on undistributed profits to get at the big fellows.

PINCH? A story is going around that many of the large bankers have been trying to hold President Roosevelt back from a boom before election.

Big money men are supposed to be restricting credit to possible borrowers on the theory that they will thus limit the extent of business activity between now and November. You hear the yarn everywhere.

Why is Dantzig rext? Because Herr Hitler says so himself in every one of his long-winded election speeches. He declared his friendship for Poland, but deplored the fact that Poland's outlet to the sea goes through German territory. He extended that "famous hand of friendship" while uttering a threat at the same time.

WHAT'S WRONG What makes the story half plausible to the gullible is the fact that commercial bank loans have increased only slightly of late, although business has been considerably better. That is another story.

Bankers are holding back, all right, and so are borrowers. The situ ation of the banker is this: He has started charging for checking accounts and, in some instances, is really making a good profit from this source. He is getting his 2 or 3 per cent on government bonds, which he must invest in whether he likes them or not. He has cut his interest on savings accounts. Thus, he is showing a fair profit without taking commercial risks and is not eager for them.

The business borrower who has good assets or good prospects to borrow on is not in a mood to burden himself with debt. The experience of the depression has left him cagey. Thus, both are keeping the money market in the doldrums. They will continue to until both change

It is hard to see how it could be anything else, considering that Hitler copied his mustache from the most successful comedian that the world has ever known and his flopping bang from Raymond Hitchcock, a man who left them laughing when he said goodby. Possibly even this temperate and instructive essay would be regarded as a seditious writing in Germany, even though its intention is to encourage good conduct among tourists in the reich. crimes are committed by base people, but the greatest of all crimes may be committed by anybody.

But nobody is above

But nobody is above murder. Any man or woman, boy or girl who possesses a temper is a potential killer.

The act of violence that causes another's death is not the beginning of the offense. It begins in the heart. To hate and desire to injure is the beginning of murder. What follows is often determined by chance. All normal people are born with a capacity for wrath. To say that the enraged are "mad" is quite true, for rage is a temporary madness an irresponsible and irrational state of mind induced by gland secretions that drug and poison the brain.

But while the capacity for rage, necessary to primitive men who often fought for their lives, is common to us all, it can be developed, like other capacities, by frequent use, or allowed to atrophy and die for want of exercise.

People who continue the childish habit of losing their tempers may be able, for a number of years, to choose between self-control and sur-render to passion; but eventually surrender becomes a habit, both mental and physical, and thereafter any irritation may cause a frenzy of imbecile

When you read that some young man has beaten his infant son to death because he cried, you expect to see a brute whose appearance is scarcly human; but in the news picture he appears as intelligent and normal and decent as the finest young men you know. Though habitually kind, he was made a killer by his habit of surrender to temper.

Any blow, even with the hand, may prove fatal. The victim's head may strike the floor or wall or a piece of furniture, and the human skull is brittle and thin. Nobody is too "good" to be a murderer if he is capable of striking a blow in blind rage.

One three-story dwelling house, completely furnished, had been erected, minus frontage, to afford a full view of the interior. No detail had been omitted. At the sound of a siren, father dropped his paper, mother her darning, the maid her washing, all grabbed gas masks, rushed upstairs, shoveled a thick layer of sand or earth over the attic floor, closed emergency splinter-proof doors and windows and then ran into a bomb-proof cellar.

After the "bombardment" was over, they emerged, with due precautions to avoid breathing gas-laden air.

What seemed like gigantic drain What seemed like gigantic drain pipes, of a special composition, afforded shelter for 30 to 60 persons. They were designed for surface use, or could be dug in partly, or wholly. For them it was claimed that not even a direct hit could affect the covering, a tough mixture with resilient properties. These shelters can be quickly sealed hermetically, air being admitted and purified through a hand-worked air-filtering apparatus.

More elaborate were chambers large

ed air-intering apparatus.

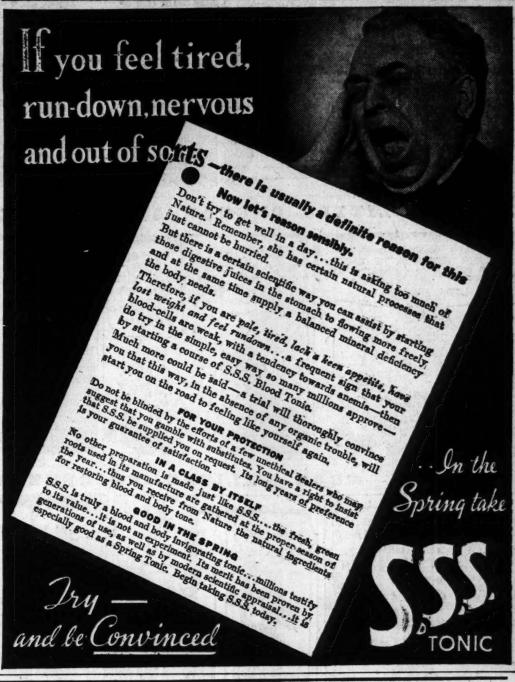

More elaborate were chambers large enough to furnish seating accommodations for hundreds. They were equipped with lighting batteries, medicine chests, stretchers and containers for gassed clothing. Prices ran from 35 to 90 marks (\$14 to \$36) per head, according to the number of people sheltered.

The familiar wartime "pill boxes" reappeared as shelters for single outside observers. These, too, were claimed to be gas and splinter-proof.

Crowds looked thoughtfully upon these sinister preparations for meeting air attacks, which are being produced to pattern by several firms, especially in the Rhineland, under supervision of government experts.

Married under romantic circumstances six months ago, Harry Waller and his bride, a former Miss Fulton County, yesterday were parted by the grim hand of justice.

The youthful husband was sentenced by Judge E. D. Thomas in Fulton superior court to serve three years on the chain gang for receiving stolen goods.

The 16-year-old bride, winner of a county-wide beauty contest last year, was almost prostrated when informed of the verdict of the court.

Waller was jointly indicted with J. R. Newton on a charge of burglary of a transportation company at 166 Garnett street and with receiving stolen goods. After his trial had reached the half-way point, a consent verdict was ordered and the court and jury agreed on a three-year sentence for Waller, who admitted disposing of a part of the goods stolen from the transportation company.

The bridegroom had four previous to stealing four automobiles in 1932 to stealing four automobiles in 1932 and was sentenced then to serve from one to four years on each count. The DEBUNKER By John Harvey Furbay, Ph.D.

Year after year, early in the 19th century, a man named Willet kept introducing a daylight-saving bill in the British house of commons. He was ridiculed at the time, for they said nothing could be more of a joke than "daylight-saving time." Willet showed that the plan had been used in ancient Rome hundreds of years before; that each hour had been lengthened in summer and shortened in winter. In Ireland daylight-saving time had been used in 600 A. D., with the same system the Romans had, said Willet. The house of commons never passed Willet's bill. As early as 1884 Benjamin Franklin advocated it in America.

President Roosevelt had warned the appropriation committees that budget estimates be adhered to on all money bills if new taxes, in addition to those proposed in the house revenue bill, were to be avoided.

Chairman Copeland, democrat, New York, of the senate conferes, insisted the President's letter, addressed to the committee several weeks ago, had not been placed before the members and had had 'mo influence' on today's action. The senate will act first on the conference report.

The conference agreement restored

The conference agreement restored e house total of \$8,518,994 for sea-ast, Hawaiian and Panama canal fenses which the senate had reduced \$1,793,994.

The senate provision for an enlisted strength of 165,000 men as against 147,000 under the house bill was accepted, with a modification that new enlistments be at the rate of not more than 1,500 a month. The change resulted in lopping off around \$7,000,000 of the funds for army pay and subsistence.

The special senate items of \$3,500,000 for the Conchas dam in New Mexico and \$2,500,000 for the Sardis reservoir in Mississippi were retained.

Copeland said the house conferees wanted to cut off the entire \$50,000,000 for new projects added by the senate, but were prevailed upon to acept \$15,000,000 of it. Altogether, the bill now provides \$115,000,000 for work on new projects previously authorized by congress. The projects are not named in the bill. The money is to be allocated by the army engineers.

Copeland said the reason for eliminating the Bluestone item and retaining the Sardis and Conchas projects was because the latter two had been passed on by army engineers and authorized in special bills passed either by the house or senate, whereas the Bluestone had not.

Paramount theater today for a week's run.

The picture combines hilarious comedy with heart-throbbing drama, spectacular specialty numbers and catchy new, popular songs. It is a colorful production with the glittering background of New York show life, with beautiful chorus and dancing girls.

Two big specialty numbers were staged by Bobby Connoly, including "I Love To Sing-A." in which Al Jolson is featured with the Yacht Clubboys in a melodious medley of lyrical nonsense, and "Save Me, Sister." in which Jolson and Wini Shaw appear in blackface, singing a tuneful air to the sizzling syncopation of Cab Calloway and his band. Colored dancers do their trucking with their partners, beginning in a night club and then to a place where they dance up "Dem Golden Stairs."

Colored dancers do their trucking with their partners, beginning in a night club and then to a place where they dance up "Dem Golden Stairs."

The story concerns a Broadway entertainer who loses his voice after his fiancee and his manager have robbed him of every cent he has. He recuperates at an outdoor camp where he falls in love with a real girl, who jilts him, however, when she finds he has instigated the purchase of a play she has writen, and which proves to be worthless. Everything ends in a blage of glory, however, with the entertainer back on Broadway, and his true love at his side.

There is a brilliant supporting cast.

Flower Lovers From All Sections of the South Are Expected in City To See the Magnificent Floral Display in the Huge Airplane Hangar, To Be Open 12 Hours.

By Albert Riley Jie.

Thomasville, Ga., April 23.—
(P)—Flower lovers from all parts of the south today began their annual pilgrimage to Thomasville for the rose show tomorrow.

Visitors began arriving earlier this week from Mobile. Atlanta, Safannah and other cities. Many more arrived today and tonight, and by tomorrow morning every highway and railway line leading into Thomasville will bring them in to enjoy the city's hospitality and to see the magnificent floral display at a huge airplane hangar.

The show, for which no admission is charged, will open at 11 a. m. tomorrow and close 12 hours later. Last year it was estimated that 30,000 attended.

Nature has garbed Thomasville in beautiful raiment for the city's big day of the year. Roses are plentiful and there will be many of them in bloom throughout the residential sections as well as at the show.

A tour of the winter estates near here, an annual custom, has also been arranged for the visitors. Extra po

Quality that Pays for Itself makes Mobiloil the World's Most Popular Motor Oil

The BEST PROTECTION your car can have is good oil in the crankcase—the best you can buy.

And that's particularly true if it happens to be one of these modern engines that operate at higher speeds-and higher temperatures. For precision engineering means tighter, closer-fitting parts. It takes a finer, tougher, higher-quality oil to protect them.

Right there is the reason Mobiloil quality pays for itself. For Mobiloil is made to take more punishment-it never breaks down or thins out dangerously under extreme engine temperatures.

If you avoid just one repair job in a year's time by using Mobiloil-you'd figure the change worth while, wouldn't you? That's the kind of protection the world's largest-selling motor oil gives you. Try this quality oil. You'll find a dealer nearby showing the Mobiloil sign. Stop there for oil and you'll save money!

For your protection Mobileil is sold in For your projection Mobiled is sold in refinery-sealed cans which guard against any possible chance of contamination. You're assured of getting clean, tough Mobiled . . . just as it left the refinery. You get this protection at no extra cost.

Ethel Erwin, lovely sub-deb, will be among those present, as will Marion Bell, the striking brunet daughter of Mr. and Mrs. H. G.

This is an unusually thrilling event for the freshmen girls, as they are not allowed to go to the evening dances until the latter part of the school year, and even then they must make a reasonably high average in their scholastic work. As a rule, they are allowed to have one date a week, then, like the proverbial Cinderella, they return about 11 o'clock to their dormitories and dateless nights until the next week-e.d, when, if they're good, they may celebrate again.

Good health is life's greatest prize. Fully two-

thirds of the people of America are sick-many are half dead. Devitalized, demineralized, re-

fined, dead foods are largely responsible. Nature, the great Healer, built the human body

from 16 mineral elements. And to rebuild your broken body, Nature MUST be supplied with all of those 16 mineral elements—and the ONLY way to supply them is through your FOODS. If you constantly break Nature's food laws you cannot be well, and you place an extra burden on your Doctor in his effort to keep you well.

Then the sunburn lotion, without drying the There is nothing so hard on a complexion as a cold winter wind, especially if it is combined with the dirt of a big city. I do not know why I never thought of it before, but I have to found that the lotions that are made to protect the skin from sunburn do as much for it in winter when used as a protection against, the bitter cold winds. It does not make any difference what the season is if you are trying to protect your skin from the elements, a sunburn lotion (if it is a good one) is as fine a thing as you can use.

I would say that the best time to use the lotion that I am talking about the roughlous protection is right after you have cleaned and cold-creamed your face and just before you put on your foundation cream, which holds your make-up. The

By CAROLINE CHATFIELD. Problems of general interest submit-ted by readers will be discussed in this column. Correspondence invited. Four name held in confidence. Write Miss Chatfield, care The Atlanta Constitution.

Dear Miss Chatfield: My cousin and I are just about ready to join the Lonely Hearts Club for the outlook on the coming year is none too cheerful. We are in our teens, considered attractive by the older generation. But what goes with the older generation. We live in a small one-horse town, overpopulated with females. We belong in the category of nice girls—perhaps too nice. We are broad-minded enough to think it all right for other girls to use their judgment about being modern but we don't smoke, drink or pet. The opposite sex is politicenough to us but their interest does not extend any further. You know the saying that variety is the spice of life. Well, there isn't any variety in sitting by the fireside every night—alone. If you have any suggestions as to how we can remedy the situation, we fervently pray that you submit them to us, for time rolls on.

Here's That Utterly New, SAFE Way To

GET RID OF UGLY FAT

It's the drugless Welch way that has been responsible for weight losses of 7 pounds a month, or more.

HERE, at last, is a SAFE way to reduce. A way that does NOT call for strict dieting, exercising, or taking drugs. A way that actually increases your mental and physical energy as pounds of ugly fat seemingly melt away.

Please read carefully: In a recent test, held under the direction of the eminent Dr. Damrau of New York, 14 people who were gaining at the rate of 13/4 pounds a month, followed this method. And the average loss registered was 7 pounds a person in a single month—WITHOUT STRICT DIETING OR EXERCISING.

What You Do

Now, all you have to do is this: Mix 34 of a
glass of Welch's Grape Juice with 34 of a
glass of water—and drink before each meal,
and at bedtime. Then eat sensibly—and

and at bedtime. Then eat sensibly—and this is what happens.

First, Welch's Grape Juice satisfies your craving for rich, sweet foods. You have less desire to over-eat fattening foods—yet you do feel comfortably satisfied.

Second, the grape sugar in Welch's is quickly burned up—producing vital energy—and, most important, helps nature to burn up excess fat.

Thus, weight is lost naturally and safely. Often at the rate of 7 pounds a month,

Only One Thing To Wetch
In following this proved, SAFE way to lose ugly fat, eat sensibly—and then there is only one thing to watch. Use only the genuine Welch's Grape Juice. In order to get the finest, selected, premium grapes grown we pay more than anyone in the United States. That is why Welch's is always full strength. No adulterants; no artificial coloring—Certified Pure. Insist upon Welch's.

As a fitting tribute to Mrs. Robert Lee Cooney, originator and presiding genius of Atlanta's Dogwood Festival, Mr. Cooney entertains at a brilliant dinner this evening at the Capital City Club, the event to precede the opera premiere, "Aida," which will be held at 8:30 o'clock at the Fox theater.

Mr. Cooney has planned the dinner in recognition of Mrs. Cooney's untiring and highly successful efforts in fostering the celebration of the city's first Dogwood Festival Week. Ever interested in furthering Atlanta's civic undertakings and cultural development, both Mr. and Mrs. Cooney have taken an active part in making the festival a memorable week in social history.

The host has invited to meet the honor guest the trustees of the Dogwood Festival Association, and a group of prominent opera stars who are here to appear in the opera series.

Bill Schmidt Holds Volunteers as Crackers Win Final, 8-2

Our brave lads come marching home this morning. After ten days of association with Pullman porters, bellhops and restaurant food, they come home for a stay of two

This afternoon they resume the Slaughter of the Innocents. That is, Knoxville has been rather innocent this spring, except when left-handed Leo Moon was out there on the rubber wheeling the ball in there. There's a tough boy to beat.

The Crackers come home ern association history. In 12 games played they have won nine, lost two and tied one.

They took four out of five from Chattanooga at the start of the season.

At Knoxville they won two and lost one, Leo Moon wir-At Nashville they took two games, tied one at 4 and 4 in

10 innings, and lost none. Both games lost might have been won but for some of those things known as the breaks of the game. The Crackers were on top most of the way.

Eddie Moore and his 1936 team are still quite a few games away from the 1936 pennant, but it so happens they are out in front. The team that wins it must catch up and pass our nine. Our nine doesn't have to catch any one. And it is the same team which showed such a penchant for front running last season. They were leading the pack for most of the 1935 season and never once choked up and faltered in the drive.

This is a team which has the old will to win. It isn't just an automatic, mechanical ball club playing emotion-less baseball. It wants to win. It tries to win. And it possesses that rare faculty of being able to come for-ward with a rally in the late innings.

I hope and trust the boys will get out in front as far as possible and stay there. My idea of a perfect race is to have the Crackers 20 games in front by July 4 and let them increase the lead substantially each day thereafter.

LITTLE ROCK, Ark., April 23.—

(A)—Little Rock nosed out Birming ham, 4 to 3, today in an eight-inning game called to allow the teams to catch a train. The clubs divided their two sames of a series cut short by I hope and trust the boys will get out in front as far as

THE CRISIS PRODUCES THE MEN.

The crisis produced the men to put the Crackers out in

The veterans, with few exceptions, haven't been hitting. Which is nothing to worry about. They will hit.

But meanwhile the new players, including Alameda

Al Browne, have come along with enough base hits to win the games. They have been slapping the ball with a lot of gusto. So much so that a half dozen boys are batting better than .300 and the others are beginning to

There is some consternation over the circuit at this spurt our brave lads.

"They can't be THAT good!" is the clarion cry. Well, I don't know, my hearties. They may be. So far-they are.

BUSTER AND OUR JIM.

Nothing has given the Atlanta fans any more satisfaction than the fine performance of Buster Chatham and "Our Jim" Lindsey, the veteran right-hander.

Chatham played great baseball last year but had a few bad afternoons. This year he came surging back with a great start and keeps going. Always a sensational fielder, he seems to improve, like wine, with age. He ll above .300 and fielding better than ever.

"Our Jim," the grand old gentleman farmer from down in Lou-wee-si-ana, came through with a smart pitching exhibition to beat Knoxville in nine innings. And the Knoxvilles are not weak hitters. They pound the baseball rather vigorously. He did a great job.

BERKELEY BILL SCHMIDT.

Berkeley Bill Schmidt, after a winter visit to a tooth doctor, has come back.

The tooth doctor took out two wisdom teeth. It seemed the roots had gone down into Berkeley Bill's pitching arm. Now the teeth are gone he has won three games and is leading the Cracker pitchers with three victories

and no defeats. Which would indicate it is the better part of wisdom to get rid of wisdom teeth.

Improvement by Schmidt, Durham and Thomas would take up some of the slack left by the loss of Harry Kelley.

BILLY BAYNE'S COMEBACK!

Nothing would be more dramatic than were Billy Bayne to come slashing back to the peak as a winning pitcher. A comeback is always great. And it is especially so when

the man comes back after taking more than his share of hard raps from the old gentleman known as Fate.

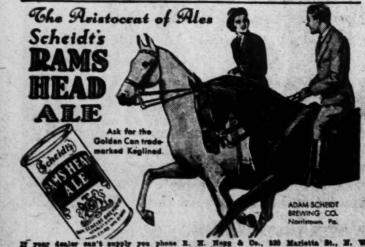

Two seasons ago Billy Bayne was beaned in the forehead with a pitched ball. He was unable to play last year.

This spring he left Memphis when Tom Watkins, generous heart, wanted to pay him almost something to pitch. Bill Bayne seems to be in shape. If he is in shape and can find the old cunning he will be one of the better left-handers in

Atlanta fans will be pulling for that happy denouement to a baseball story that has been rather tough to date.

HARRY KELLEY DOES IT. Harry Kelley would have knocked the "L" out of the Red Sox yesterday if there had been an "L" in their name. As it was he was hotter than all the baked beans in

By Jack Troy.

SULPHUR DELL, NASHVILLE, Tenn., April 23.—Eddie Moore's merry men walloped two Vol pitchers for 10 hits and almost as many runs to win the final game, 8 to 2, this afternoon. It gave the champion Crackers a record of seven wins and two losses for the first road trip of the season. You can't beat that kind of percentage.

Big Bill Schmidt, the Berkeley bearcat, was in fine form and, while he gave up 12 hits, they were as well spaced as the men on a checker-

Smokies Obtain Marshall Mauldin

KNOXVILLE, April 23.—

(R)—The Knoxville Smokies have obtained Marshall Mauldin, young outfielder, from the Chicago White Sox on option. He is due to join the Knoxville club in Chattanooga today.

Mauldin went to the White Sox in 1934. He was farmed to Longview, Texas, in the West Dixle league last season and turned in a batting average of 337.

Junie Barnes, former Piedmont leaguer, who has a very deceptive way of delivering the ball from the portside, never had a chance to show the Vol fans his real claim to fame, for the Crackers got him out of there in two innings, making him responsible for seven runs and six hits. He departed the game in the third with none out, two on and Lipscomb up.

Lord Byron Speece, a grand relief pitcher, took up the assignment from there on out and was quite effective. The Crackers finished the job of clean-Continued on Second Sports Page,

With a sparkling exhibition of subpar sharpshooting, Treddie Haas, of Louisiana State University, former southern amateur champion, breezed through a field of 60 golfers today to win medal honors in the 36-hole qualifying round of the Southern Intercollegiate golf tournament.

The gangling Louisiana State junior finished with a total of 145, one stroke under par for the distance, and, as playing-captain, led his teammates to victory in the battle for the team title which North Carolina won last year.

Haas put together rounds of 71-74 for his winning margin, a figure which gave him only one stroke to spare over one of his teammates, Sophomore Paul Leslie, defending champion, and Dan Sage Jr., of the University of Georgia, who went the route in eyeh par 146's.

Scores of 156 or better gained the championship flight of 16 for the first round of match play starting tomorrow at 18 holes.

DODGERS RALLY TO BEAT GIANTS:

Brooklyn Scores Two in Tenth to Defeat Bill Terry's Team, 4-3.

NEW YORK, April 23.—(UP)— The National league activity was featured by a pair of extra-inning games. The Brooklyn Dodgers whipped the York Giants, 4-3, in an overtime session while the Cincinnati Reds halted the St. Louis Cardinals, 8-6. Standings in the circuit re-

mained unchanged.

The Dodgers scored their first victory of the season over their city rivals when Sid Gautreaux, third-string catcher, came through with a

pinch single.

Going into the ninth, the Dodgers had a two-run lead. With two men on, Jackson hit a single that scored the two men and tied the score. In the tenth, Mel Ott homered for the Giants. But the Dodgers came back in their half and knotted it up when Bucher singled to score Frey. Gautreaux then batted for Berres and won the game.

Dodger Outfielder Atlanta Players May Get Trial With Yanks

Johnny Nee, Here for Look, Finds Dearth of College Pitchers and Catchers.

By Ralph McGill.

John Nee, the baseball gumshoe for the New York Yankees, will leave this morning after a couple of days in our town looking over some of our local baseball talent.

John Nee, who picked up Bill Dickey and other Yankee stars, is interested in Ed Clements, Ogiethorpe pitcher, and in a couple of infielders on the local Dixisteel nine. Mosley and Hornsby.

Nee failed to get a real look at them, as rain prevented the sched-

ulea Ogietnorpe-Steel game. But he will be back for another look. He in Albany today. Nee is devoting a large slice

his scouting time to college baseball. And he finds the game is drawing better than in past years. "I saw good crowds at games at L. S. U., in Mississippi, Alabama and over at Athens," he said. "I think college baseball is going along all right." Nee finds this change, however, in college baseball talent: He never sees any good college He never sees any good college tchers or catchers.

"They just don't have them any more," he said. "I haven't seen a boy who could throw a good, hard, fast one. And the catchers don't measure up. They still show some good outfielders and infielders. But no batterymen.

"We have to go to the sandlots and semi-pro ranks to find pitchers and catchers. The talent is still plenti-ful and baseball won't lack for god

Speed and batting power are the two chief assets for a young fellow, according to Nee. He may learn how to field but if he can't hit and run hasn't much chance to advance in baseball.

He believes the smaller leagues, i they have courage, will struggle through and in 1937 be stronger and present better baseball.

"The Sally league," he said, "can't expect to have good, well-balanced teams this year after five years of no league at all. But they can build this year and if the fans will help them out, 1937 should see the Sally a good league. The Georgia-Florida league seems much stronger this year after their start last season."

Yanks had shared that position. In the other American league game, the world champion Detroit Tigers, whips ped by the St. Louis Browns in their last two meetings, came back with a 10-0 triumph.

The Indians piled up a four-run lead in the first inning with three singles—by Knickerbocker, Hughes and Averill—a walk, and a double. Yosmik got the walk and Hale hit the double which drove Pitcher Johnny Whitehead from the mound. The Indians scored their other two runs in the fifth when Hughes, Averill and Trosky doubled and Vosmik sacrificed. Harry Kelley, a rookie from Atlanta, held the powerful Red Sox to three scattered hits. One of them was Jimmy Foxx's third homer of the season.

Mr. Mann is, like Barkis, "willin'.

Today, for instance, is ladies' day. The ladies (God bless 'em), Hence it was with some surprise that Mr. Earl Mann, president of the Atlanta baseball club, found in his mail yesterday a suggestion from one of the feminine fans of Atlanta that there be established once a year a "Gentlemen's Day."

And Mr. Mann thinks perhaps it isn't such a bad idea after all. He would be glad to hear further suggestions on the idea.

an in connection with alleged systematic theft of 24 miles of copper wire, valued at between \$8,000 and \$10,000,

Blanket misdemeanor charges were placed against the others, George Poss, 24, of Ivy street; Clarence Williams, 36, of 26 Fair street; Jack Bagley, 42, of 30 New Whipple avenue, Egan Park; James Parnell, 27, of Egan Park; Hubert Carroll, Central avenue, and Luther Breedlove, 20, of Lithonia, and the Reagin woman.

According to Captain A. L. Hutchins, of DeKalb county police, the high-tension copper wire, valued at 17 cents a foot, was cut down from an cents a foot, was cut down from an emergency line running from the North Druid Hills road to the Gwinnett county line, between Atlanta and Norcess.

A three-cornered race for county school superintendent, all of the candidates being women, featured the Camden county primary yesterday, in which an unusually large vote was Three separate strands of the wire

were strung over this eight-mile distance, or a total of 24 miles of wire. The line was dead, with no current running through it, but it was pointed out the alleged thieves risked death from electrocution if the power had been turned on for any reason.

After working in one group at first

After working in one group at first, according to Captain Hutchins, the band split, the Jones brothers and Parnell working together. The wire was sold, police said, for five and a half to six cents a pound.

It was cut down, rolled and taken away in automobiles.

The Reagin woman was arrested in

The Reagin woman was arrested in a car belonging to Bagley, police said, and he was arrested a short time later. Three others escaped and more than 1,000 pounds of wire was recovered at the time of her arrest, it was revealed.

Police learned Poss was married a few days prior to his arrest.

Auditor Advises Greater Reserve as Insurance on State Property.

State Property.

The state set aside \$43,483 from various state agencies in 1935 for its insurance fund, established by Governor Talmadge in an executive order the year before abandoning the old method of insuring state property through commercial companies.

The total fire loss against this fund was \$1,483, State Auditor Tom Wisdom reported yesterday in an audit of the executive department, headed by the Governor.

Wisdom recommended that if this method of carrying insurance is continued "the general assembly be asked to appropriate a sufficient amount of money, a maximum of \$500,000, to this fund, so that complete protection to the state's property is insured and that a properly bonded trust officer be placed in charge with authority to invest so as to enhance the value of the fund."

The mulior added:

"In the meantime, or until the annual receipts of the fund have been accumulated in sufficient amount to make the necessary fund, it is suggested that the matter of insurance with an exemption of the first \$50,000 loss be investigated."

Wisdom reported \$28,472.21 was expended for operating expenses of the Governor's office. The audit also showed a new automobile was purchased for the use of Governor Taimadge which cost the state—along with operating expenses for the year—\$3,923.37.

showed a new automobile was purchased for the use of Governor Taimadge which cost the state—along with operating expenses for the year—\$3,923.37.

Wisdom said there was a cash balance for the executive offices at the end of 1935 of \$2,986.98.

Personal services in the Governor's office cost the state \$20,765.50, including Talmadge's salary of \$7,500 a year. The Governor's traveling expenses were \$839.58. The next largest item was \$2,453.11 for telephone, telegraph and postage. Printing and publicity cost was listed at \$445.65.

The buildings and grounds division of the executive secretary Carlton Mobley is the disbursing officer, spent \$45,906.80 for the capitol buildings and grounds and \$7,166.12 for the executive mansion and grounds.

The purchasing division, also within the executive department, received \$10,654 for the year and spent \$9,841 of which \$9,060 went for personal services.

Proper Permits.

Georgia had 135 pilots and 68 aircraft holding active Department of Commerce licenses April 1, 1936, according to announcement made yesterday by the Bureau of Air Commerce at Washington. Both licensed and unlicensed aircraft in the state April 1, according to the survey. Totaled 108.

Eighty of the 135 pilots' licenses held in Georgia were transport, three were limited commercial, 49 were private and three were amateur. New licenses no longer are issued in the industrial grade, it was said. There was record of one gilder.

The total number of licensed pilots, according to the census, was 14.806, only 20 more than on April 1, 1935. There were 7.205 licensed aircraft, or 350 more than a year ago. The licensed pilots included 404 women classified as follows: Transport, 69; limited, commercial, 25; private, 262, and amateur, 48.

California led all other states in licensed pilots, having 2,730. New York had 850 licensed aircraft, in comparison with California's 820.

'Hell Drivers' to Attempt

**Hell Drivers' to Attempt Novel Stunts on Oval at Lakewood Park.

"Lucky" Teter and his Hell Drivers will again be the center of attraction at Lakewood park Sunday afternoon at 3 o'clock.

Teter says part of the Hell Drivers' performance Sunday afternoon might bestermed a rehearsal, as they are going to attempt several stunts for the first time. Often the rehearsals of these death-defying stunts prove more thrilling than the perfected feat, which means the spectators are going to be given an opportunity of going "back stage."

age."
One of the stunts to be initiated One of the stunts to be initiated Sunday afternoon causes a dubious shake of the head but Teter insists they are going to have a try anyway. Three board walls are to be placed across the track in front of the grandstand, a large wall in the center and two smaller walls on either side. A rampway 48 inches in height will be built in front of the large center wall. Simultaneously, Teter in his regular stock automobile and two red devils on their motorcycles will erash through on their motorcycles will crash through on their motorcycles will crash through these walls after they have been ig-nited into a blazing inferno. Unless this stunt proves too hazardous, with too much danger from fire and flying debris, it will become a regular fea-ture of the Hell Drivers' performance. Dan Morris, local stunt man, will race his motorcycle down a rampway from the roof of the grandstand across the race track and into the lake.
